# Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 64, 69, 70-72, 76, 78-83, 89-92, and 96-102 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Pavesi (5987781).
- 3. Claims 64-67, 69-71, 76, 78-83, 85-87, 89-91, and 96-108 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Chee (5918383).
- 4. Claims 64, 69, 76, 77, 83, 89, and 96 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Donzis (4874640).

### Claim Rejections - 35 USC § 103

- 5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 6. Claims 77 and 97 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pavesi in view of either Frachey or Chee.

Pavesi shows a shoe comprising a sealed barrier (11), a foam member (14) bonded to some of the sides of the barrier (coumn 4 lines 18-22), and a fluid (air) substantially as claimed except for the material for the barrier. Frachey or Chee teaches the well known and conventional use of polyurethane for barrier elements in footwear. It would

Page 3

have been obvious to use polyurethane as taught by Frachy or Chee for the barrier in the shoe of Pavesi to provide a durable, inexpensive, and easy to assemble barrier.

## Allowable Subject Matter

7. Claims 68, 73-75, 84, 88, and 93-95 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### Response to Arguments

8. Applicant's arguments filed 6/1/06 have been fully considered but they are not persuasive.

In response to applicants' arguments directed towards Donzis and/or Chee, the fact that the barrier is sealed by a valve does not negate the fact that it is sealed. If the barrier was not sealed it would not retain the fluid inside of it.

In response to applicants' arguments directed towards Pavesi, the barrier is clearly pressurized to place an outward force on the barrier as clearly shown in the figures. The fluid is inherently and clearly pressurized to place an outward force on the barrier/casin. If this were not the case the casing of Pavesi would be shown and collapsed around the foam instead of spaced outwardly therefrom.

#### Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3728

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

1. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <a href="http://pair-direct.uspto.gov">http://pair-direct.uspto.gov</a>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). Other useful information can be obtained at the PTO Home Page at www.uspto.gov.

In order to avoid potential delays, Technology Center 3700 is encouraging FAXing of responses to Office Actions directly into the Center at <u>(572)272-8300</u> (FORMAL FAXES ONLY). Please identify Examiner <u>Marie Patterson</u> of Art Unit <u>3728</u> at the top of your cover sheet.

Any inquiry concerning the MERITS of this examination from the examiner should be directed to Marie Patterson whose telephone number is (571) 272-4559. The examiner can normally be reached from 6AM - 4PM Mon-Wed.
